Definition: In order to qualify for this Warranty, the Enviro-Dri Weather-Resistant Barrier System (“ENVIRO-DRI WRB SYSTEM”) application must be in accordance with TBS installation instructions and accepted system details. All system components (Field Membrane, Joint Fabric, Counterflashing Fabric) must be purchased from TBS.

The TBS Warranty:

Tremco Barrier Solutions, Inc. (“TBS”) hereby warrants to the Builder of new construction, subject to the terms, conditions and limitations stated herein, that for a period of ten (10) years from the installation date, TBS’ ENVIRO-DRI WRB SYSTEM, when applied in strict accordance with TBS’ installation procedures, accepted industry standards and applicable building codes, in a properly designed and constructed vertical wall application with approved sheathing, will be free from leaks through the ENVIRO-DRI WRB SYSTEM caused by a defect in the ENVIRO-DRI WRB SYSTEM material(s). Plywood, OSB, Structural Fiberboard and Glass-mat faced Gypsum as detailed in ICC-ES Evaluation Report ESR-2843 are approved sheathing materials for Enviro-Dri.

Acceptable validation of purchase (i.e. a copy of invoice from ENVIRO-DRI WRB SYSTEM installation contractor) must be included with all written claims.

TBS shall be immediately notified of any alleged failure of the ENVIRO-DRI WRB SYSTEM to perform as warranted, but no later than thirty (30) days after discovery of the alleged failure. Notice shall be made in writing to: Tremco Barrier Solutions, ENVIRO-DRI WRB SYSTEM Warranty Department, 6402 East Main Street, Suite 201, Reynoldsburg, Ohio 43068.

Upon request, Builder, at its cost and expense, must provide TBS with free access to the ENVIRO-DRI WRB SYSTEM during regular business hours, including permission from any occupant of the residence, for purposes of investigation and/or repair and any removal and/or replacement of any material that must be removed to gain access to the ENVIRO-DRI WRB SYSTEM for purposes of such investigation and/or repair. TBS shall not be responsible for the removal or cost of removal and/or replacement of any materials which may cover the ENVIRO-DRI WRB SYSTEM.

If upon investigation by TBS it is determined that the alleged failure is covered under this Warranty, TBS will undertake the cost of providing sufficient material to replace the affected areas, and pay for the labor costs necessary to reapply the ENVIRO-DRI WRB SYSTEM material(s) to the affected area(s). In no event shall TBS’ total liability under this Warranty exceed the purchase price of the ENVIRO-DRI WRB SYSTEM.

Warranty Exclusions:

This Warranty does not cover installation of the ENVIRO-DRI WRB SYSTEM that is (i) not performed in accordance with TBS’ installation procedures, accepted industry standards and applicable building codes, or (ii) applied to an unapproved substrate.
